Characteristics

- High torque and high working speed to quickly perform tough applications
- Very short for optimum manoeuvrability and easy handling
- Reactive Force Control (RFC) stops the motor when the tool bit is suddenly overburdened to reduce twisting of the main unit and prevents potential injury
- Constant speed control provides additional power so that the motor can maintain its speed under load
- Ergonomic soft grip handle for optimal control and longer comfortable working
- 22 torque settings for best adjustability
- Brushless motor for high power, less wear and a long service life
