#### Characteristics

Powerful torque of up to 345 Nm for tightening and 600 Nm for nut busting, ideal for tough applications with bolts up to size M20

4 modes for best adjustability in various applications

Auto-stop function stops the tool after a preset time to prevent overtightening of bolts

Auto-slow function reduces speed automatically after loosening is detected to prevent bolts from dropping

IP56 for superior ingress protection for harshest weather conditions and dust resistance

Ergonomic soft grip for optimal ease of use, safe and convenient handling

Integrated LED light for a clear view of the work surface

Brushless Motor technology for longest lifetime and less maintenance
